A4.2 - Mapping Water Sensitive City Scenarios
Mapping Water Sensitive City Scenarios

Research project in Society Program (Project A4.2)

July 2014 – June 2017

Aims to develop and test tools and methodologies grounded in the latest science, policy and practice of strategic planning for water sensitive city transitions

Case studies in Perth, Melbourne and Brisbane
Project deliverables

• **Strategic transition framework** for shaping Perth as a WSC
  – The rationale for transforming practice towards water sensitivity
  – A detailed vision for Perth as a water sensitive city
  – Diagnosis of Perth’s current challenges
  – Transition pathways and strategies to realise Perth’s vision
  – Consolidated transition plan that aligns pathways and strategies with next steps and upcoming opportunities

• Transition frameworks for other **case study locations**
• **Guidance manual** with process methodology and practical advice

• **Journal articles** to advance knowledge on transition planning
