VICTORIA

Conference program

Water Sensitive Practice.
Every city. Every day.

water sensitive cities conference 2021

Australian Government
Department of Industry, Science,
Energy and Resources

Business
Cooperative Research
Centres Program

A new format—we're online and in person

An **interactive, online conference** design that allows access from anywhere

In-person sessions at hubs in multiple cities across Australia, to support the online component

A range of opportunities to **network and participate** to keep the conference engaging

To accommodate the changes to how we work, we've moved online.

This means conference participants can join from any location. We're providing a range of opportunities to network and participate to keep the conference an engaging experience.

We will complement the online activities with in-person sessions at hubs across Australia.

Access to online sessions is via a dedicated website, with access provided after registration.

But make sure you attend the conference venue in your state, if you are able, for Day 2—this is where the discussions will happen, regardless of whether the content is in-person or virtual.

Venue

We invite you to join the in-person conference activities in your state. Venues are:

Queensland:	The Sebel, Brisbane
New South Wales:	Sydney Water, Parramatta
South Australia:	SA Water House, Adelaide
Western Australia:	Botanicals at Crown Perth
Victoria:	Online only

Mentimeter

We'll use Mentimeter (a web-based interaction tool) so that attendees can ask questions and participate in sessions and conversations:

1. Download the Mentimeter app to your phone via the App or Google store or go to www.menti.com.
2. At the start of each session, you will receive a Mentimeter code. Simply enter the code and follow the prompts.

Get social

Follow us on Twitter: [@crcwsc](https://twitter.com/crcwsc) or [LinkedIn](https://www.linkedin.com/company/crcwsc/)

Use **#2021WSCC #watersensitivepractice #everycityeveryday** on your social posts to join the conference conversations.

Welcome to the

5th Water Sensitive Cities Conference 2021

Welcome to our fifth and final Water Sensitive Cities Conference.

Our theme—**Water Sensitive Practice. Every city. Every day.**—highlights the potential of water sensitive cities. In the future, no matter which city we visit, we'll see these practices being used daily, in projects big and small.

Of course, we're not there yet. After 9 years of research and collaboration, we have filled many of the big knowledge gaps that previously stood in our way. We have converted this new knowledge into tools and guidelines, and we are now deploying them in real projects.

This conference is both a celebration of how far our cities have come and an exploration of the next steps.

Our collective role is to steer these next steps.

At the 5th Water Sensitive Cities Conference, we will:

- Learn from case studies, particularly transferable insights about what worked well and what we'd do differently
- Build networks within and between states, so that these lessons can flow
- Showcase the most recent tools emerging from the CRCWSC, and explore how industry has begun to use and evolve them
- Explore how others have scaled up sustainability practice, and what this means for water sensitive cities.

*Ben Furmage
CEO, CRC for Water Sensitive Cities*

Day 1

**Monday
15 March**

Online site tours and workshop

Time	Program	Online	In person
11:20 am	LOG ON TO THE CONFERENCE WEBSITE		
11:30 am	Welcome to the conference —How you can get the most out of the conference	Y	N
